The TW-9500 is powered with a 6.8 HP serious wound motor and provides up to 4.6 t pulling power and 18 m/min line speed. The HD planetary set ensures maximum stability even under toughest conditions. The relay is waterproof, the brake reinforced.

The remote control of the TW 9500 is detachable and waterproof. With the 3 meter cable length a safe operation of the winch is assured even in difficult situations.

The TIBUS TW-9500 low profile winch is designed for a 12-volt electrical system. It's shipped complete with 30m synthetic rope, HD-hook, aluminum fairlead, remote control, sealed (IP68) housing and solenoid.
